

# BIRDWATCHERS' GUIDES

## *The ultimate in birdwatching site guides*

- *Birdwatchers' Guides* aim to provide the travelling birdwatcher with all the information he or she will need to make the most of a birdwatching holiday or tour.
- *Birdwatchers' Guides* are researched and compiled by expert birdwatchers with outstanding knowledge of the birdlife of the particular region or country.
- Each *Guide* contains a comprehensive and up-to-date site by site list of the major, and many minor, areas of interest to birdwatchers. Each main site entry includes a map, information on permits and access restrictions, guidance on best visiting times and seasonal variations, and a list of the more interesting species which can normally be seen. Wherever possible mention is also made of other interesting wildlife at each site.
- Each *Guide* includes a selective bird list giving brief details on distribution and status of the uncommon birds which may be found, cross-referenced to site information, and a full species list for the region or country. Checklists of other wildlife are also provided when possible.
- Other features of the *Guides* are: pre-tour information; transport details and advice; information on climate, clothing, food, accommodation, health, and medical and financial facilities. Care is taken to advise travellers of regulations and prohibitions which could adversely affect a trip.

### *Titles in the series are :*

- *Nepal*
- *Morocco*
- *Southern Spain and Gibraltar*
- *The Gambia*
- *Turkey*
- *The Canary Islands*
- *Portugal and Madiera*
- *India*
- *Trinidad and Tobago*
